PRINCIPAL

It Is Hard To Believe That Four Years Went By So Quickly

One moment you were *freshmen*, short tempered and full of fight. The next year you were a *sophomore*, with wisdom and new insight. Then, you became a *junior* with HSPA to pass. Now, you are a *senior* with a whole lot of pizzazz! I can't believe my eyes; you have beauty, style and grace. You walk around the school with a prideful strut and grin on your face.

I can't wait to see you at prom night in your matching tux and gowns. I can't wait to see your graduation day, as you jump up and down.

I'm so proud of your accomplishments, as a parent should be. I'm so happy that you made it and leave Newark Vocational High School with A's and B's.

Next you will attend colleges and Unversities; four years will go by fast. Then look out world, once you graduate, at the top of your class.

In the future when you come back to Newark, to give back to the community you love. Make sure to stop in to see us; we await your return with love.

Those are a success who have lived well, laughed often and loved much; who have gained the respect of intelligent people and the love of children; who have filled their niche and accomplished their task; who leave the world better than they found it, whether by a perfect poem or a rescued soul; who never lacked appreciation of the earth's beauty or failed to express it; who looked for the best in others and gave the best they had.

Why God Made Teachers?

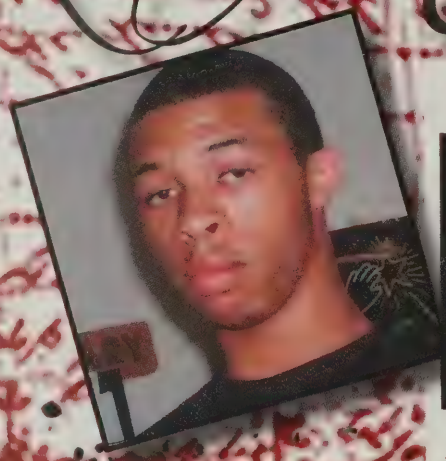

By Kevin William Huff

When God created teacher,
He gave us special friends
To help us understand His world
And truly comprehend
The beauty and the wonder
Of everything we see.
And become a better person
With each discovery.

When God created teachers,
He gave us special guides
To show us ways in which to grow
So we can all decide
How to live and how to do
What's right instead of wrong,
To lead us so that we can lead
And learn how to be strong.

Why God created teachers,
In His wisdom and His grace,
Was to help us learn to make our world
A better, wiser place.
